New York Convicts Disciplined After the Brockway Fashion. (By Associated Press.)

ELMIRA, June 27.—The Reformatory investigation was, after some delay, resumed this morning before Judge Learned and Mr. Deyo, Dr. Flint being detained by a railroad wreck. Wilfred Jolly was the first witness called by Judge Gilbert. He is now in

his first grade, and was sentenced from New York City June 26, 1891, for burglary. Witness said he had been in the bath-room five times. During his first Panishment he was struck over the had with the paddie and then taken to the solitary and chained up for three days. During this whipping, witness said, when he had fallen to the floor from its effects, Brockway said. "Get up there, you dirty little convict." Witness said he still had marks on his side caused by the paddle. He was punished this time for having tobacco in his possession. The next time he was taken to the bath-room Brockway let him off, but Keeper Halpin struck him with his fist, and Brockway hit him once on the head with the paddle. A third time he was taken to the bath-room, and on this occasion he got five blows from the paddle, and Brockway it ruck him once in the face with his fist.

WANTS RECORDS COPIED.

Register Levy Says Certain Documents Are Mutilated.

Application was made to Justice Barrett, in Supreme Court, Chambers, today, by Register Ferdinand Levy, for the sanction of the Court to have certain books and public records connected with his office copied, on the ground that they have become so mutilated and obliterated as to be almost useless.

Register Levy also asked that Justice Barrett appoint a reference to determine what books and records shall be copied.

Justice Barrett refused to grant the application, on the ground that the law does not authorize him to order a reference, and that the copying must wait until some Supreme Court Justice is free to make the examination personally.

Among the books which Register Levy alleged are mutiliated are fifty-three books of conveyances, thirteen mortsuge indices, twelve strantors and mortgage indices, twelve grantors and twenty-three grantees' indices.
